

# CND™ VINYLUX™ Long Wear Polish Application & Removal

**30 MIN** The CND™ VINYLUX™ Long Wear Polish System provides seven-day wear, chip-resistant color and gel-like shine. It is infused with a unique caring complex of Keratin, Jojoba Oil and Vitamin E for beautifully cared-for nails every time.

## Application:

### STEP 1:

## P.E.P. - Natural Nail Preparation (No Buffing)

For more detailed information see the CND P.E.P. Technique Step-by-Step.

### 1. P - Perform a manicure.

- a. Have the client wash their hands with soap and water and towel dry.

- b. Massage COOLBLUE™ Hand Cleanser into the client's hands to cleanse skin.

- c. Remove any existing nail color from the natural nail using an acetone-based polish remover (OFFLY FAST™ Moisturizing Remover) and a plastic-backed, lint-free pad.

- d. If necessary, trim the length from each nail, using nail clippers.

- e. Shape the nail edge (tip of the nail) with a **soft grit Kanga™ File** or **Koala Buffer™**.

- f. Apply a small amount of **CuticleAway™ Professional Cuticle Remover** evenly around the cuticle of each nail.\*

- g. Gently slide a **cuticle pusher** along the nail plate to lift cuticle.

- h. Remove any excess **CuticleAway™** from the nail and use a **urette** to remove cuticle.

- i. Clean with soap and water, rinse and towel dry.\*

- j. Use a **manicure nipper** to carefully remove any loose pieces of skin or hangnails. Use a gentle touch and never cut skin as it can lead to infection.

\* Dry P.E.P. is an excellent option for clients with great natural nails, who do not build excessive cuticle between services. Eliminating the wet cuticle treatment can shorten the service time and increase adhesion for some clients.

- E - Eliminate** surface contaminants, dust, lint or skin and  
**P - Purify** nail plate layers.

- Cleanse and temporarily dehydrate the nail plate with **SCRUBFRESH™** Nail Surface Cleanser and a plastic-backed, lint-free pad. Pull back the skin and scrub the nail as if removing red nail polish.

**STEP 2:**

## CND™ VINYLUX™ Long Wear Polish Application\*

Enhance service and speed with the **CND 5 Point Polish Method** - an easy, systematic approach for polish perfection that will bring out the best in **CND™ VINYLUX™**. (For more detailed information see the **CND 5 Point Polish Method Step-by-Step.**)

\* For clients with ridges or slight imperfections in the natural nail, **RIDGEFX™** Nail Surface Enhancer has been designed to work synergistically with the **CND™ VINYLUX™** System. Apply **RIDGEFX™** prior to **CND™ VINYLUX™** Color Coat. (For more detailed information see the **RIDGEFX™** Nail Surface Enhancer Step-by-Step.)

### Solid Color:

- Shake vigorously to blend.
- Apply one thin layer of **CND™ VINYLUX™** Color Coat to extension edge and nail surface.
- Apply a second thin layer of Color Coat to the nail surface. The second layer will provide additional coverage and color, refining and perfecting the tiny free margins with each layer.

### French Manicure:

- Shake vigorously to blend.
- Apply one thin layer of the chosen pink color to the extension edge and nail surface.
- Apply a second thin layer of **CND™ VINYLUX™** Color Coat to the nail surface. The second layer will provide additional coverage and color, refining and perfecting the tiny free margins with each layer.
- Apply a thin layer of white to the extension edge and tips of the nails in an arched smile line to flatter the nail shape. Carefully detail with the **CND™ ProSeries Gel Flat Oval Brush** lightly moistened with **SCRUBFRESH™** to perfect the smile line.

**STEP 3:**

## CND™ VINYLUX™ Long Wear Polish Top Coat Application

- Shake to blend.
- Apply one thin layer of **CND™ VINYLUX™** Top Coat to each extension edge and nail surface.
- After one minute, spray nails with **SOLARSPEED SPRAY™** Quick Dry Spray to speed up dry time.

Removal:

**STEP 1:**

# CND™ VINYLUX™ Long Wear Polish Removal

1. Have the client wash their hands with soap and water and towel dry.

2. Massage **COOLBLUE™** into the client's hands to cleanse skin.

3. Saturate a plastic-backed, lint-free pad with **OFFLY FAST™**. Place pad on the nail plate only and hold for five seconds.

4. Use firm pressure along with a circular motion to remove the color from the nail plate. Be sure to concentrate the pad on the nail and avoid the surrounding skin.

5. Rub the nail with a plastic-backed, lint-free pad saturated with **OFFLY FAST™** to remove any residue.
